ORIGIN OF THE OLYMPIC GAMES.

Prot. Marquand writes in the April Century: Each tribe wished for itself

he credit of baying established the

festival which drew to Olpmpia the strength, beauty and intelligence of all

Greece. Some claimed that Zeus es-ablished the festival to commemorate

is success in the contest with Cronus

or the sovereignty of heaven-a myth

which seems to point to a Pelasgic

origin of the games. The Acheans

coveted the honor for their hero, At-reus, and Strabo for the Etolians.

More widely credited was the belief

that the games were established by the Cretan Hercules, who in play chal-

lenged his brothers to run a race, and

to crown the victor with a branch of wild olive. To the interest of the

Dorians was the myth of Apollo out-

myths do not necessarily imply remote

autiquity for the events to which they gave a poetic coloring. It is more to

the point that Homer describes several

of the contests represented afterward in the great national games, and that

some of them may even be found in

Egyptian wall paintings of the second and third millennium before Christ.
